To Whom It May Concern:

I have been privileged to work with Eric Curtis over the past few months and would highly recommend him to any English or Theatre Department. After meeting Eric at the Illinois Theatre Festival, he offered to get involved with my growing Theatre Department at Gordon Tech High School. His experience as a professional actor coupled with his teaching credentials make him a dynamic and engaging educator. He seems to have no problems communicating with teenagers in an effective and non-threatening way. My students really valued his advice and showed improvement by applying his acting strategies.

Eric is not only a star on the stage and as a director, but in the classroom as well. His enthusiasm and content knowledge in both English and Theatre Arts would be an asset to any classroom. He realizes that teaching doesn't happen in a vacuum and that educators must work together in order to provide the best experience for their students. He is a true team player, always willing to do his part as well as listen to others. He clearly loves teaching and, I believe, he is meant to do this job!

Please feel free to contact me as I would be happy to discuss Eric's credentials further. Thank you for your time and your careful consideration of his application materials.

Sincerely,
